

50th Rosenheim Window & Facade Conference

„climate.safe.construction“

October 11 + 12, 2023 in Rosenheim

Dear guests,

We celebrate anniversary: For 50 years, the Rosenheim Window & Facade Conference has been the industry get-together where relevant knowledge about standards, technology and trends is conveyed at first hand and decision-makers can exchange ideas.

This is more important than ever as the serious consequences of climate change are making increasingly urgent demands on politics, business and society. But displacement is not an option, and that is why this year's motto is "climate.safe.construction."

We look forward to welcoming you and wishing you a great festive evening when celebrating our 50th anniversary.

Yours

Prof. Jörn P. Lass,
Director of Institute
ift Rosenheim

Tuesday, October 10

Power Workshop for window constructors

German only: The workshop deals with four current topics from the daily practice of the window construction company. The combination of lecture, case studies and the discussion with the speaker ensure a high practical relevance. You can expect up-to-date information, tips and solutions for your daily work as a window manufacturer.

The participants of the workshop are invited to a dinner from 18.00.

Press conference

The press conference will take place at 14.00 hybrid. A separate invitation will follow. If you have any questions, please contact benitz@ift-rosenheim.de.

13.00 –	Tested type statics for insulating glass unit
13.50	Simple verification with the ift-Guideline <i>Norbert Sack, ift Rosenheim</i>
14.00 –	Interface between building sealing and wall connection of floor-to-ceiling window and door elements
14.50	Can windows and doors be professionally waterproofed? <i>Thorsten Neuenhöfer, Ingenieurbüro Klaus Hafer</i>
15.00	Coffee break
15.30 –	Parameters and Evidence for Sustainability
16.20	Verification for Practitioners <i>Christoph Seehauser, ift Rosenheim</i>
